TECHNICAL PROJECTS

Grace Shopper Project | Full Stack Developer | December 2022 | [Visit Project Here](#)

A multi-page CRUD API e-commerce application to shop for items, with functioning payment processing utilizing Stripe.

- Tools Used: React, Express, Node.JS, Material UI, Javascript, Typescript
- A basic e-commerce web application with browsing/purchasing capabilities, with or without an account, categorized items, order history, shopping cart visible on multiple devices, and speciality Admin account abilities.

Stranger's Things Project | Full Stack Developer | September 2022 | [Visit Project Here](#)

A single page CRUD API application to shop the items for sale and sell your own items.

- Tools Used: React, API, Javascript, HTML, CSS
- Implemented an administrative dashboard for adding and updating products, viewing orders, and viewing user details.

Art Collector Project | Front-End Developer | August 2022 | [Visit Project Here](#)

A search engine for the art pieces that are hosted by the Harvard Art Museums.

- Tools Used: React, API, Javascript, HTML, CSS
- Multiple filtering options were built into the search engine to best locate the objects that the user is searching for.

EXPERIENCE

IS Risk Analyst I | Franciscian Missionaries of Our Lady Health System | Baton Rouge, LA 6/22 - 11/22

- Headed and reorganized the database of the 300+ legacy vendors that have contracts with the various facilities within the FMOL Health System.

Administrative Coordinator 4 | State of Louisiana | Baton Rouge, LA 4/21 - 11/21

- Headed the implementation and management of the online testing for police and firefighter entry level applicants.
- Provided technical and website support for applicants and those preparing for competitive exams.

Office Manager | Budget Cleaning & Maintenance, LLC | Baton Rouge, LA 11/2020 - 4/21

- Created and maintained all company digital presence such as, business webpage, social media pages such as Google Business, Yelp, and Facebook, adding updates, announcements and photos; as well as creating marketing design mark-ups using Canva and Photoshop.

Administrative Assistant | Garrety & Associates CPAs, LLC | Baton Rouge, LA 07/17 - 10/2020

- Trained all employees upon the implementation of Microsoft Teams and Office 365 saving the company \$5,000 in training costs.
- Maintained 500+ client files with their tax returns, personal information, balances, and financial options.
- Provided desktop support to clients in the way of walking them through accessing their tax files when they needed assistance, as well as company employees when they experienced any technical issues with their desktop systems, desk phones, or their Outlook accounts when setting appointments, resetting passwords, and connecting with their cell phones.
